

Food Ordering APP for Lhetto

Our team realized the business need and quickly churned out development plan to build an enterprise mobile solution to help customer meeting their strategic goals in a turnaround time.

Customer Profile

Founded in 2013, Lhetto is an enterprise solution providers to Hotel and Restaurants with contemporary solutions and services.

Business Scenario

- Lhetto is in need to develop a fully integrated digital menu for Hotels and Restaurants bringing lifestyle experiences to the end customers.
- The software had to enable hotels and restaurants establishing customer loyalties, serving faster with error free orders, and enhancing their business propositions with robust analytics.
- The application must easily integrated with Social Media, Coupons, POS and Payment Systems to increase revenues, efficiency and branding.
- Hotels and Restaurants can setup the application easily and the self-explanatory menu back-office features can help non-technical staff also to organize menu items categorically such as Beverages, Starters, Main courses, Deserts etc. and uploading item description, photos, video, ingredients, calories and spice levels.

Solution Delivered

- TalentPace team had designed and delivered sophisticated hybrid Mobile solution using Ionic framework.
- Integrated multiple third party tools and technologies enabling smoother back-office functions of Restaurants.
- Provided robust, scalable and secured architecture and also developed the entire system in quick turnaround time.
- CMM standards are followed throughout the development life cycle and delivered quality system.
- Database Administration and Management services include administration tasks that are required for the physical database organization such as systems DBA activities.

Business Benefits

- Our solution had helped with instant ordering, quick bill view and quick bill payment speeded up service and improved accuracy.
- Increased revenues and provided opportunities in upselling areas with improved customer loyalties.
- Highly integrated analytics helped in realizing the signature items, slow moving items, and to curb the waste quite effectively.

Technologies

- Ionic Framework
- Android
- IOS
- WINDOWS
- ASP.NET MVC
- C#
- HTML5/CSS3
- WebServices
- SQL Server

TalentPace developed a platform for us to launch our business on time. Dedicated team efforts really helped us meeting our timelines consistently. We really appreciate their contribution.
